

# Minisymposium Stem Cells

## Hematopoietic & leukemic stem cells: what's new & next?

### Programme

**10.00 - Dr. Dominique Bonnet**

London Research Institute, Cancer Research UK, London, UK

**"Heterogeneity of Leukaemic Initiating Cells: Implications for  
targeting therapies"**

**11.00 - Dr. Emmanuelle Passegué**

University of California San Francisco, San Francisco, USA

**"Stress-response mechanisms and genome maintenance in  
normal and leukemic stem cells"**

**12.15 - Lunch**

**13.30 - Prof. Paresh Vyas**

University of Oxford, Oxford, UK

**"Characterisation and Therapeutic targeting of Leukaemic  
stem cells in Acute Myeloid Leukaemia"**

**14.30 - Round table**

**Registration required for this symposium (limited seats)**
